

Spot Cleaning Guns

TARGET TG125

The TG125 is an affordable gun with deluxe features normally found on guns costing twice as much. Included is a fully adjustable nozzle to allow use on even the most delicate fabrics with virtual ring-proof cleaning. The TG125 is a great gun for removing screen printing smudges and ink marks. It is also great for retail stores for removal of dirt, oil and make up.

The TG125 can be equipped with a Direct Feed and an Air Dryer for high-speed spot cleaning.

TARGET TG 300

The TG300 is a high powered gun that blasts out even the toughest screen printing inks. The design of this gun incorporates an exclusive bronze alloy pump that ensures long life and maximum efficiency. The handle is molded from Fiberglass reinforced Styrene, to resist breakage. The ergonomic design of the gun distributes the weight over the whole hand and wrist, helping to reduce operator fatigue. The extra wide container, makes the TG300 more stable and helps eliminate accidental breakage.

It is available with optional Air dryer and Direct Feed Hose attachments.

TARGET TG200

The TG200 has a super resilient aluminum case with double ground electrical protection. The high output silicone oscillation motor generates a powerful stream of cleaning fluid to flush out the toughest stains and soils. Plain and simple this gun is a work horse!!

Often called "old faithful" the TG200 is an updated version of the all metal classic gun design. As with the TG125 and TG300 this gun comes complete with the target adjustable nozzle. It is also available with the air dryer and direct feed hose attachments.
